NONE

I.G.I. employs and utilizes those techniques and equipment currently available to I.G.I., including, without limitation, 10% magnification corrected triplet loupe and binocular microscope, master color comparison diamonds, non-contact-optical measuring device, and such other instruments and/or processes as deemed appropriate by I.G.I. A duly accredited gemologist or jeweler can advise you with respect to the importance of and interrelationship between cut, color, clarify and card weight.
